

Principal's Message

Anuradha Rohidekar

"Education is the most powerful weapon which you can use to change the world."

— Nelson Mandela

Welcome to Broadvision World School, Thanisandra Branch, where we strive to create a nurturing and stimulating environment for every child to learn and grow. With a Post Graduate degree from Bangalore University and nearly two decades of experience in various capacities—as a Biology teacher, H.O.D, Senior Secondary Coordinator, Vice Principal, and Principal—I am deeply committed to providing quality education.

I believe that every child has the potential to learn and grow, and our school is a place where students feel fearless in their pursuit of knowledge. It is rightly said that “The whole purpose of education is to teach the child to think and not what to think.” At Broadvision World School, we hold this truth close to our hearts and strive to instill the right values in our students, helping them develop a holistic personality ready to take on life's challenges.

We are on an elevating and stimulating journey to provide our children with an exclusive learning experience. By encouraging them to march ahead with a positive attitude, skill, confidence, sensitivity, and responsibility, we ensure they are well-prepared for the future. Through exploration, experimentation, and a plethora of extracurricular activities, our students gain optimal exposure and confidence, making their educational journey enriching and fulfilling.

Anuradha Rohidekar
